ABOUT ME

I am a front-end developer seeking an internship, with a strong foundation in React and TypeScript. I aim to build responsive user interfaces, write clean and maintainable code, and continuously improve my development skills in a professional environment.

EDUCATION

Bachelor of Engineering in Information Technology 2021 – 2026
Industrial University of Ho Chi Minh City (IUH) Ho Chi Minh City, Vietnam

SKILLS

Frontend: **React, TypeScript, JavaScript, HTML, CSS, Ant Design, TailwindCSS**
Tools: **Git, GitHub**

PROJECTS

Personal Portfolio 2026
GitHub: https://github.com/LeHoangPhuc11/Portfolio
Responsibilities:
- Built modern front-end using React, TypeScript, and CSS with Lottie animations
- Designed fully responsive UI for mobile and desktop
- Implemented theme switching (Dark / Light mode)
- Developed multi-language support using i18n

Key Nexus E-commerce (Team Project) 2026 – Present
An e-commerce web application currently under development that allows users to browse products and manage shopping data through a modern interface.
GitHub: https://github.com/nthuwng/key-nexus-fe
Responsibilities:
- Developed front-end application using React
- Built authentication UI for user login and access control
- Designed and implemented dashboard interface
- Integrated RESTful APIs from backend services
- Created clean, responsive user interfaces
