0898021522 https://github.com/LeHoangPhuc11

ABOUT ME

I am a front-end developer seeking an internship, with a strong foundation in React and TypeScript. I aim to build responsive user interfaces, write clean and maintainable code, and continuously improve my development skills in a professional environment.

EDUCATION

Bachelor of Engineering in Information Technology 2021 – 2026
Industrial University of Ho Chi Minh City (IUH) Ho Chi Minh City, Vietnam

SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Ant Design, TailwindCSS
Tools: Git, GitHub

PROJECTS

Personal Portfolio 2026
A personal portfolio website built with React and TypeScript to showcase projects and technical skills through a modern, responsive interface.

- **Live Demo:** https://www.lehoangphuc.xyz
- **GitHub:** https://github.com/LeHoangPhuc11/Portfolio

Responsibilities:

- Built a modern portfolio using React, TypeScript, and CSS, featuring Lottie animations for enhanced user experience
- Designed a responsive UI optimized for both mobile and desktop
- Implemented Dark/Light mode for better user experience
- Developed multi-language support using i18n
- Deployed on a custom domain with optimized performance and smooth user experience

Key Nexus E-commerce (Team Project) 2026 – Present
An e-commerce web application designed to provide a seamless product browsing and shopping management experience through a modern and responsive interface.

- **GitHub:** https://github.com/nthuwng/key-nexus-fe

Responsibilities:

- Developed the front-end using React, TypeScript, and CSS, integrating RESTful APIs
- Built authentication UI for secure login and access control
- Designed and implemented dashboard interfaces for efficient data management
- Integrated backend APIs to handle dynamic data and user interactions
- Created clean, responsive user interfaces for a seamless experience across devices
